The Big Bang

UK Young Scientists & Engineers Fair

Students were informed last week that the whole academy will be attending the Big Bang Fair at the NEC in Birmingham on the 13th March. The Big Bang Fair is an exciting opportunity to see the largest celebration of science, technology, engineering and maths for young people. The fair aims to excite pupils in the opportunities careers in these subjects can offer and allows them to meet inspiring engineers and scientists from some of the biggest and most interesting companies in the UK. The fair also hosts the finals of the National Science and Engineering Competition which is open to all 11-18 year olds in full time education and is a competition we would very much like to be taking part in in future years.
